

At Support Foundation, we promote Choice and Control of our participant and give wide range of options of service providers to choose from. We do not want our NDIS participant to just rely on our services. Following are some options given to our participation shall they want to choose another providers. We are open to discussion about alternative service provider at any time.

Conflict of Interest, Choice & Control and Continuation of support

At Support Foundation, we promote Choice and Control of our participant and give wide range of options of service providers to choose from. We do not want our NDIS participants to just rely on our services as there may lie a conflict of interest while providing different services for the same participant. Support Foundation may deliver several services to the same NDIS participant under the same plan. We also make sure there is a continuation of support shall there come any unforeseen issues at Support Foundation. Following are some options given to our participation shall they want to choose another provider. We are open to discussion about alternative service provider at any time.
